

At Ladybridge High School your son/daughter is being given many revision resources in their Science lessons. Your son/daughter can also access any of the Science curriculum at home by logging onto www.connectcollins.co.uk. Your son/daughter has the log on details. This is a very useful revision tool with your son/daughter being able to view Science content covered in class, questions to assess their understanding as well as past exam questions.

In addition to the above we also recommend the following paper revision guides and workbooks that contains practise exam questions.

For students studying combined science -

CGP Combined Science Revision Guide
CGP Combined Science Workbook

For students studying separate sciences –

CGP separate science revision guides
CGP separate science revision workbooks

These are available for both Foundation and Higher tier. Please ensure you that you choose appropriate the appropriate level.

Your son/daughter has so much potential. To ensure your child reaches this potential it is essential that they carry out quality revision in their own time in addition to their studies at Ladybridge. This can be supported by your son/daughter using the above revision guides.
